

Ports in AOMORI Japan for Cruise Ships

Aomori Prefectural Government

1 Nebuta Museum Wa-Rasse

The Nebuta Museum WA-RASSE is a facility that introduces the history and charms of the Aomori Nebuta Festival. At the museum you can experience every aspect of the festival. On display are 4 full-sized floats that participated in the festival in August, and Nebuta Faces that show the individuality of their respective creators.

● Approximately 10 minutes on foot from Shin-Chuo Warf

2 Special Historical Site Sannai-Maruyama Site

World
Cultural
Heritage

Sannai-Maruyama site is the archaeological site of a large-scale settlement which thrived from approximately 3,500 BC and suddenly ended around 2,000 BC. It is one of the largest remains of a settlement from the Jomon era in Japan.

● Approximately 20 minutes by car from the port of Aomori.

3 Hirosaki Cherry Blossoms

Hirosaki Castle is one of the major cherry-blossom viewing spots in Japan. In spring, about 2,600 cherry trees bloom, and create captivating and beautiful scenery with the castle, three turrets, five castle gates, and triple moats.

● Approximately 1 hour 10 minutes by car from the port of Aomori.

4 Tsugaru-han Neputa Village

A facility where you can have an all-encompassing Tsugaru Cultural Experience. We have Neputa, Tsugaru Shamisen, Tsugaru Traditional Art Crafts and Souvenirs, and a Tsugaru Food Heritage operated restaurant.

● Approximately 1 hour 10 minutes by car from the port of Aomori.

5 Tachineputa Museum

Floats from the nationally popular summer festival, including three giant Tachineputa standing over 23 meters high, are displayed on a permanent basis. Visitors can enjoy everything about the festival, including videos and a festival music practice venue, throughout the year.

● Approximately 30 minutes by car from the port of Tsugaru.

6 Lake Juniko and Aoike

Lake Juniko consists of 33 lakes and ponds that are scattered in the western part of the World Natural Heritage Site Shirakami-Sanchi. One of them is called Aoike (literally "blue pond"), the surface of which is enchantingly shiny and beautiful, like melted blue ink.

● Approximately 1 hour 30 minutes by car from the port of Tsugaru.

7 Hotokegaura Coast

Light green boulders standing almost 100m tall face the sea along a 2 km (1.2mile) coastline. Often called "naturally occurring art", these characteristically giant and strangely shaped rocks create a mysterious atmosphere and are named after Buddhas.

● Approximately 2 hours by car from the port of Ominato.

8 Oirase Gorge

Oirase Gorge stretches 14 kilometers from Lake Towada's Nenokuchi. The gorge has an elevation difference of 200 meters and scenic spots such as Choshi Falls, Ashura Stream, and Kumoi Falls are scattered along the stream. It is wonderful to take a walk here during the new growth of spring or the changing colors of autumn.

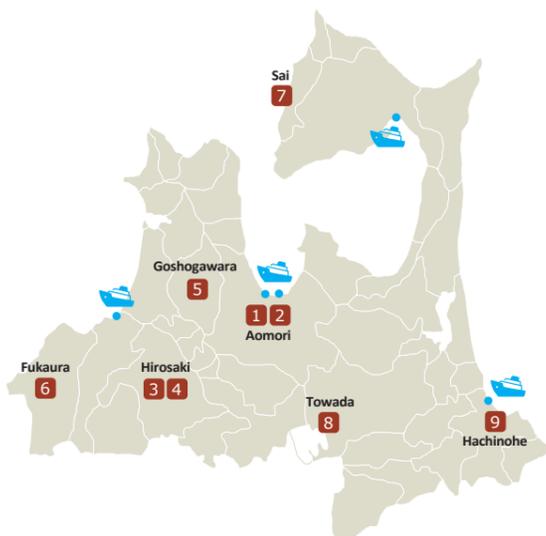

● Approximately 1 hour 30 minutes by car from the port of Hachinohe.

9 Tanesashi Coast

The Tanesashi coast offers many natural attractions such as the natural grass that grows to the water's edge, the nakisuna (singing sand) that produces sounds when walking, and a vast grassy plain with many flowers and plants.

● Approximately 30 minutes by car from the port of Hachinohe.
